**Re: Rent Comparability Study
Shiloh Village Apartments
8702 Shiloh Road
Dallas, TX 75228
Section 8 Contract #: TX160011033**

Dear Mr. Ayberk:

In accordance with your request, I am pleased to submit this *Rent Comparability Study* for the “Shiloh Village Apartments” apartment development located at 8702 Shiloh Road, in Dallas, Dallas County, Texas. The property consists of an existing apartment community featuring 168 apartment units, all of which are Section 8 units. The development consists of one freestanding community building plus 15, two-story, walk-up buildings that were constructed in 1979 and renovated most recently in 2021. The development is a family-oriented development. Our most recent inspection of the property and market area occurred on December 18, 2025. For purposes of this report, the identified property is referred to as the “subject property.” No renovation work is proposed, and the property was analyzed on an “As Is” basis only.

Based on the analysis conducted herein, our **Estimates of Market Rent** are below.

Estimates of Market Rent - "As Is"					
Unit Type	# Units	Avg. Unit Size (SF)	Market Rent (\$/Mo.)	Market Rent (\$/SF/Mo.)	Prepared Grid? (Y/N)
2 BR	16	940	\$1,830	\$1.95	Y
3 BR	80	1,119	\$2,235	\$2.00	Y
4 BR	72	1,200	\$2,535	\$2.11	Y

Nature of the Assignment

Cornerstone Valuation Services has been engaged to provide a *Rent Comparability Study* for the subject property. The primary *purpose* of this report is to provide opinions of market rent for the subject units, effective as of December 18, 2025 (the date coinciding with my most recent inspection of the subject property and market area) on an “As Is” basis.

Rent Comparability Studies (RCS) are required on HUD-financed properties and are needed for those projects renewing their Section 8 contracts for one year or multiple years, or for projects not currently covered under a HAP Contract that are proposed to be covered, or partially covered, under a HAP Contract. Market rent is the rent that a knowledgeable tenant would most probably pay for the units as of the effective date of this report if the tenants were not receiving rental subsidies and rents were not restricted by HUD or other government agencies.

I understand that HUD/the Section 8 Contract Administrator (CA) and the project owner will use the opinions of market rents to determine: 1) the owner's options for renewing the project's Section 8 contracts; 2) the maximum rents allowed under any renewal contract, and/or 3) the reasonableness of the current contract rents.

Report Standards and Reporting Guidelines

The RCS was prepared in accordance with the Uniform Standards of Professional Appraisal Practice (USPAP) and the requirements in Chapter Nine of HUD's Section 8 Renewal Guide. Market Rents were defined and estimated in accordance with Sections 9-8 through 9-13 and Appendix 9-1-2 of the Chapter Nine guidance.

Limitations of Use and Applicability of Conclusions

The accompanying report, of which this letter is a part, describes the site, building improvements, pertinent data considered, and discusses the methods of appraisal used in reaching our conclusions. Neither the report, the materials submitted, nor our firm name may be used in any prospectus or printed materials prepared in connection with the sale of securities of participation interests to the public. Due to the nature of real estate investments and the variety of economic factors that influence value, the conclusion(s) presented in this report is/are valid only for the effective date(s) stated herein.

Threshold Test

As required by Section 9-14 of the Chapter Nine guidance, we compared the subject's gross rent potential calculation with 150% of the Small Area FMR ("SAFMR") gross rent for the property zip code (75228) as published annually by the Department. Shown in the tables below are the Gross Rent Potential Calculations for the subject property, as well as the 150% SAFMR calculations.

Gross Rent Potential Calculation - "As Is"					
Unit Type	# of Units	Concluded Rent (Net)	Utility Allowance	Gross Rent	Monthly Rent
2 BR	16	\$1,830	\$102	\$1,932	\$30,912
3 BR	80	\$2,235	\$124	\$2,359	\$188,720
4 BR	72	\$2,535	\$133	\$2,668	\$192,096
Total					\$411,728

**Utility Allowances From Rent Schedule.*

SAFMR Gross Rent Potential Calculation (75228)			
Unit Type	# of Units	Gross Rent	Monthly Rent
2 BR	16	\$1,590	\$25,440
3 BR	80	\$2,000	\$160,000
4 BR	72	\$2,550	\$183,600
Total Gross SAFMR Rent			\$369,040
150% of SAFMR Gross Rent			\$553,560
Subject's Concluded Gross Rent			\$411,728

As shown above, the subject's gross potential monthly rent of \$411,728 is less than 150% of the SAFMR gross rent potential of \$553,560. The RCS does NOT exceed the mandatory market rent threshold.

The subject's rent conclusions appear reasonable based on the available market data and the comparables. In addition, the concluded rents are bracketed by the adjusted rents reflected by the comparables, indicating that the rents are achievable and supportable within the market and with respect to rent levels at competing properties.
